No- Let's keep the meeting. I just spoke with Elena and she thinks they will be able to review quickly before the conference call. The main issue to discuss on Monday is the phase 1 evaluation from ATSDR and their draft letter.

Agenda:

- Review the phase 1 sampling results
- ATSDR provide their assessment of these results and recommendations
- **Strategy for the PAS- can wait for next meeting**
- **logistical issues for the PAS- can discuss regardless of phase 2 results**
- **Presentation materials for the PAS- can discuss conceptional format or ideas**
- Frequency of sampling events- **more improve and we should discuss what this means**
- If phase 2 is available- discuss these results and the impacts if any- **general discuss only**

Hi Ladies,
Is the meeting for Monday still on, or has it been postponed based on Denise's email below? Please advise.

Subject: PAS

Hi, y'all!

I want to postpone the PAS for a later date, which will depend on the delivery and review of the QA/QC data from the last round of samples. This way Jill and ATSDR will be able to review the new data and incorporate the information into the new health consult.
